# BUSINESS OVERVIEW

Continental Veterinary Distributors P/L trading as Unified Auto Zone is a full-service automotive solutions provider committed to the highest standards of safety, quality, and reliability. We recognize that the work we do directly impacts the lives of our clients, and for this reason we never compromise on product quality, workmanship, or service delivery.

We provide both mechanical and body repair services under one roof, positioning us ahead of garages that specialize in only one area and rely on subcontracting. To ensure complete accountability and guarantee our workmanship, our services are fully in-house and include vehicle servicing and repairs, panel beating, spray painting, fiber work, canopy building, heavy vehicle and bus servicing, as well as automotive parts sales.

Our management team brings over twenty-five years of combined industry experience and participates in continuous professional training to remain aligned with the rapidly evolving automotive technology landscape. As vehicles become increasingly advanced, we ensure our skills, tools, and systems remain equally up to date.
